Subject: the Tejon reaffirmation request

Thank you for the time to meet today, Sequoyah. Chairwoman Morgan is greatly reassured that we are in the final decision-making process on the Tribe's request, based on my report to her.

You asked for a few items. First, I double checked the percentage of current Tejon members who are alive at the time of the last formal recognition of the Tribe in 1962. The percentage was lower than I remembered - it is 25%, as stated on page 35 of the Tribe's 2006 original request.

Second, you asked for electronic copies of certain documents (all of which were attached to the 2009 email). The following are attached:

1. the 1851 treaty;
2. the 1915 Terrell census;
3. genealogy - the document attached to the 2009 email is different from the list I gave you. This document is a compilation of actual genealogical charts;
4. the 1916 request from Interior to Justice, requesting that litigation be filed by the US as trustee for the Tribe;
5. the 1916 order withdrawing land for the Tejon Tribe;
6. the bill of complaint filed by the US as trustee for the Tribe;
7. the 1962 order restoring the land to the public domain (I gave you a hard copy today but thought an electronic copy might be handy)

I think this covers everything. Please don't hesitate to let me know if I've forgotten something or if you would like additional documents.

Arlinda.
